

Great Teaching Toolkit Project 2023/24

**Hambleton
Richmondshire**
Locality Board

What is GTT?

In response to data on current priorities, Hambleton and Richmond Locality Board are utilising school improvement funding to support schools to develop and refine their pedagogy. Licences for The Great Teaching Toolkit (GTT), based on research by Professor Rob Coe and the University of Cambridge, will be made available, free of charge for schools who wish to take up this offer.

The GTT is more than a short-term 'standalone' training package. It is an evidence-based and sustained commitment to developing teaching quality over time. It is professional development, but not as you know it. To use the toolkit is to be part of a community that itself is contributing to a new body of knowledge on the things that teachers and leaders can do to demonstrably improve. The toolkit contains training videos, audits and feedback tools to support development.

Please click [here](#) to find out more.

What is on offer?

Each Primary school may have two licences and each Secondary school may have four. Should we have any licences not used, these may be re-distributed to signed up schools.

How to sign up?

Please click [here](#) to complete an expression of interest form in the first instance.

Great Teaching Toolkit
Great teaching, better learning
